WORK EXPERIENCE

Cronos Europa – Luxembourg, Luxembourg

Address: 89A, rue Pafebruch, 8301 Luxembourg (Luxembourg)

Cybersecurity Governance, Risk and Compliance Consulting Services

[16/02/2026 – 24/03/2026]

- Providing cybersecurity governance, risk management, and regulatory compliance consulting services to public sector and highly regulated organizations.
- Supporting the design, implementation, and continuous improvement of security governance frameworks aligned with EU regulations, ISO standards, and organizational objectives.
- Acting as a trusted advisor to security leadership and operational teams.

European Commission – Brussels, Belgium

IT Security Officer for DG EAC

[04/12/2024 – 11/10/2025]

- Define and enforce IT security policies, procedures, and best practices.
- Identify, assess, and mitigate risks affecting information systems.
- Monitor, detect, and respond to IT security incidents.
- Manage access control, user rights, and third-party IT service providers.
- Provide expertise and guidance on IT security to management and operational units.
- Raise awareness and train staff on cybersecurity practices.
- Collaborate with internal and external stakeholders on security matters.
- Report on security status, risks, and incidents to support decision-making.
- Maintain awareness of new threats and technologies relevant to IT security.

European Commission - DIGIT C4 – Luxembourg, Luxembourg

Name of unit or department: DIGIT.C.4 Networks and Telecommunications - **Business or sector:** Information and communication

IT Security Officer - Risk Manager - Compliancy Manager

[31/03/2022 – 04/12/2024]

Main tasks including supervision of teams of external contractors contributing to these:

- Developing and maintaining risk assessments and security plans for the different IT services;
- Assuring compliance with the applicable security standards and frameworks;
- Redaction of various security standards and policies based on the ISO 27001 guidelines and GDPR.
- Designing, maintaining and contributing to the evolution of a business continuity framework for the unit;
- Developing and maintaining business continuity plans for the IT services within unit's portfolio;
- Designing, maintaining and contributing to the evolution of information security management systems for the IT service portfolio of the unit;

- Developing and maintaining records related to personal data treatment for the different IT services;
- Monitoring the Key Performance Indicators (KPIs) of relevant external companies and enforcing contractual penalties as necessary.

Roles:

- Acting as unit's reference regarding IT security, GDPR and BCM compliancy;
- Acting as a unit's internal auditor regarding all aspects linked to IT security, GDPR and BCM compliancy;
- Participating to the Cloud comitee council;
- Participate to public procurement procedures of the unit.

 **Amexio Luxembourg SA** – Luxembourg, Luxembourg

Cyber Security Consultant

[19/07/2021 – 04/12/2021]

Main mission: Reinforcement of the cybersecurity team within the **bank Intesa Sanpaolo Luxembourg** by performing the following tasks:

- Detection of vulnerabilities using the Nessus tool, management of these vulnerabilities by proposing an action plan;
- Log analysis using the Splunk tool, particularly targeting the risk of information leakage;
- Risk analysis and treatment of the latters based on the ISO 27005 guidelines;
- Realization of awareness sessions on the different risks in cyber security, especially phishing and social engineering;
- Testing the effectiveness of these sessions by carrying out phishing simulations;
- Carrying out gap analysis on security controls and proposing actions in order to be compliant with the standards of the CSSF (Luxembourg financial sector supervisory organization);
- Redaction of various security standards and policies based on the ISO 27001 guidelines.

 **itrust consulting** – Luxembourg, Luxembourg

ICT security consultant

[15/08/2017 – 19/07/2021]

Systems Security Manager (SSM)

In May 2020, I was appointed Systems Security Manager:

- Managing technical part of the company's Information Security Management System (ISMS)
- Assisting the Information Security Officer (CISO) in ISMS-related tasks.

IT consultant

Designing and maintaining Information Security Management System (ISMS) governance systems for our various clients but also for itrust. The objective of our customers being to be certified ISO 27001.

My task consisted in performing

- carrying out gap analysis
- writing policies
- reviewing their ISMS on a periodic basis.

This work was done in close collaboration with the clients and all documents were validated by our CISO before being sent to the client.

Contribution on research projects :

• Detection of potential terrorist threats by analysis of the Darknet:

This project was funded by the European Union as part of the ATENA H2020 project.

• Specification and development of an Intrusion Detection System:

This project was funded by the Luxembourg government to develop a low-cost system to detect in real time potential intrusions on a computer network.

EDUCATION AND TRAINING

MSc Computer Science with Cyber Security On line

University of York [15/12/2023 – Current]

City: York | Country: United Kingdom | Website: <https://www.york.ac.uk/>

Master in Computer Science

University of Namur [10/09/2019 – 10/09/2020]

City: Namur | Country: Belgium | Website: <https://unamur.be/> | Field(s) of study: Information and Communication Technologies: • Software and applications development and analysis • Database and network design and administration • Information and communication technologies not elsewhere classified | Thesis: Optimising business processes using blockchain, Study of the criteria for selecting a Blockchain solution

Project management, Software engineering, IT security, E-Business, Blockchain

Bachelor in Computer Science

University of Namur [15/09/2015 – 10/09/2020]

City: Namur | Country: Belgium | Website: <https://unamur.be/> | Field(s) of study: Information and Communication Technologies: • Information and Communication Technologies (ICTs) not further defined • Database and network design and administration • Software and applications development and analysis | Type of credits: ECTS | Number of credits: 180

- **Computer science:** Operating systems concepts, Programming, Information systems design, Algorithms, Introduction to the scientific approach, Database engineering, I.S. analysis and modelling, Language theory, Human/machine interaction, Computer functions and concepts.
- **Mathematics:** General Mathematics, Mathematical Analysis, Mathematics for Computer Science, Algebra, Probability and Statistics
- **Humanities:** Introduction to Sociology, Organisational Theory, Economic Facts and Decisions, Anthropological Approach to Information Technology, Introduction to Philosophical Thought
- **Management:** Law of contractual obligations, Macroeconomics, Financial accounting, Marketing, Company law, Financial management, Communication, argumentation and negotiation in the ICT field

Machine Learning with Python-From Linear Models to Deep Learning

Massachusetts Institute of Technology [15/01/2020 – 20/05/2021]

Fundamentals of Technical Analysis in Finance

New York Institute of Finance [15/03/2022 – 01/04/2022]

Field(s) of study: Business, administration and law: • Finance, banking and insurance

ITIL® Foundation Certificate in IT Service Management

AXELOS [06/07/2022 – 09/07/2022]

ISO , Risk Manager ISO 27005

iTrust [02/08/2017 – 04/08/2017]

City: Luxembourg | Country: Luxembourg

Expenditure Lifecycle (EU)

European Commission [2023 – 2023]

PM2 Certification

European Commission [30/08/2024 – 30/08/2024]

CERTIFIED INFORMATION SYSTEMS SECURITY AUDITOR (CISSA)

CISSA [13/11/2023 – 16/11/2023]

Certified Cloud Security Professional (CCSP) Training

[09/09/2024 – 13/09/2024]

Country: Luxembourg
